CAPTURE

Choose File > Capture from the top menu bar

Capture Deck Setup Select the Settings tab

Under Device Control, the default settings for DV/HDV Device Control should work. If you want to record from VHS or the DVD/VHS deck change the Device control to "None"

8

9

Record

Cue up your tape and click record when you are ready to record. If using miniDV You can use the Logging tab to setup multiple In/Out points

** You should be able to see your image in the Premiere preview window when cueing up your media.

Stop Recording

When you are finished click the stop button. If recording using the batch recording it should stop when completed
