**Quickstart Guide**

**Turn on the Projector**
On the wall next to the entrance door locate the Pixie Control.

Press the PROJ PWR button firmly once.

Projector Input = HDMI If for some reason the input has been changed press the source button to cycle through inputs.

*Projector will take a few minutes to warm up

**Attach Cable**
Attach the HDMI to mini display port adapter from the wall to your macbook or teacher’s station iMac

**Mac System Preferences**
If image isn’t displaying properly launch System Preferences either from the dock or Apple Menu. Click the “Displays” icon under Hardware

To clone your desktop image to the projector check “Mirror Displays” under the arrangement tab. If you do not have an arrangement tab click hold down the ~ option key while you are in the display pane.
