**mac system preferences**

If image isn’t displaying properly launch System Preferences either from the dock or Apple Menu. Click the “Displays” icon under Hardware.

To clone your desktop image to the projector check “Mirror Displays” under the arrangement tab. If you do not have an arrangement tab click hold down the U option key while you are in the display pane.

---

**change inputs**

Press the top far left button to turn amplifier on. The middle LCD display illuminates when on.

Push the corresponding button for your desired input

Rotate the far right circular knob clockwise to raise volume. Rotate knob counter-clockwise to lower volume

** The computer’s volume level effects the overall volume levels. Try not to go above 98% on the computer volume or it may sound distorted.

---

**airPlay**

Press the ATV button on the receiver

Bring up the control center on your device by swiping up from the bottom area just below the dock

Tap the AirPlay button and select Apple TV CJ101. Slide Mirroring to “ON”

If this is your first time using the apple tv you will be prompted to enter a password. Contact avservices@ringling.edu if you need the password.

When finished turn off AirPlay mirroring. From the AirPlay menu and select iPhone or iPad to Turn Off AirPlay Mirroring.

---

**attach cable**

Attach the HDMI to mini display port adapter from the receiver to your macbook
