**mac system preferences**

If image isn't displaying properly launch System Preferences either from the dock or Apple Menu. Click the "Displays" icon under Hardware.

To clone your desktop image to the projector check "Mirror Displays" under the arrangement tab. If you do not have an arrangement tab click hold down the `option` key while you are in the display pane.

---

**airPlay**

Press the select button on the input switcher to choose Input 3.

Bring up the control center on your device by swiping up from the bottom area just below the dock.

Tap the ![AirPlay](image) button and select CJ 107. Slide Mirroring to “ON”

---

**troubleshooting**

If the projected image is green, pink or just acting “odd”. Restart the switcher by unplugging the power cord for approximately one minute.

---

**input switcher**

To the left next to the cintiq
